

## Welcome to No Webmaster Required!

Why No Webmaster Required? If you are a start-up, small businesses or non-profit, you have a need for a professional website at reasonable cost. More importantly, you need the ability to edit your website in real time, on the fly, whenever necessary.

In today's fast moving competitive environment, you can not afford to wait for your webmaster to make a key change or add your new product to your site. You lose money each day that you wait. We understand that time is money.

With a Content Management System (CMS) from No Webmasters Required! you can update your website immediately, using a simple, word processor like interface. You just log in to your administration area and make your updates, push save and it is live on the web. You do not need to know anything about servers or HTML. We put you in control of your website.

No Webmaster Required! will discuss your business with you. Together we will decide the best features for your website to accomplish your online goals. We will then build the CMS site, train you on its use and be there to support you as you learn to use it.

We can have your site up quickly using our pre-built templates or we can create a custom design\* for you.

CMS Features can include:

- Picture Gallery
- Streaming Videos
- A Community (i.e. MySpace)
- Make Connections (Friends) with other Users
- Share Pictures with other Users
- Send Private Messages to other Users
- Community Guestbook
- Each User can have their own Homepage

All of our CMS Websites include:

- Random Newsflash generator
- News feed manager. Choose from over 360 news feeds from around the world
- Archive manager. Put your old articles into cold storage rather than throw them out
- Email-a-friend and Print-format for every story and article
- In-line Text editor similar to Word
- Polls/Surveys
- Layout preview. See how it looks before going live
- FAQs

You can see examples of these options on our demo website.

We offer packages for creating your easily editable CMS website starting at just \$795. We also offer hosting & e-mail starting at \$14.99/month. This is white glove hosting, we will set up your e-mails and show you how to make back-ups and more.

If your budget is tight, you can also opt to pay a monthly fee that includes the website development and hosting. With this option you do not have to pay for the development of the site upfront. Plans start at \$99/month.

Through our affiliated companies, we can also help you with:
